

Hi Coffee Beans!

These images are ready for you to print and cut out!
These are also really good templates to make your own
Photo/Puzzle Cube!

The cubes I used are from the Dollar Store
and measure 15mm

HAVE FUN!

Here's a helpful marking and cutting template for you.
Each square represents 1 cube and all 8 cubes represent the
entire cube (for the longest pictures).
You may have to make your own template if your cubes
are a different size than mine.
